

Welcome to Oregon Melanoma Center providers of cancer care in Springfield, Oregon. Oregon Melanoma Center is a warm, inviting clinic where patients will be provided with a comprehensive cancer care plan delivered with compassion and respect.

Dr. Trezona's career has been dedicated to his dual specialty, surgical and medical oncology. There is strong research supporting improved outcomes for patients with cancer who receive their care from a surgical oncologist.

Dr. Trezona and his staff value the quality of patient's lives and focus on treating disease effectively and efficiently. We use the best available tools and methods to diminish treatment side effects. While providing exceptional surgical and medical care, we do not forget it takes more than technology, knowledge and skill to fight cancer. It requires the undeniable power of the human spirit.

We offer support and care for the whole person, body, mind and spirit. We provide personalized care for patients and their families in a healthy and nurturing environment. With compassion, courage and respect; we honor diversity and celebrate life!

In preparation for your upcoming visit, we ask that you complete the enclosed forms and bring these with you to your appointment. This will help ensure that we have accurate information for you and get you checked in for your visit in a timely manner.

The following forms are enclosed:

- Oregon Melanoma Center *Office Policy and Financial Agreement*
- Medical History Questionnaire
- Acknowledgment of Notice of Privacy Practices/Medical Release of Information
- Notice of Privacy Practices

Please note, it is important that you keep your scheduled appointment with us. If you should need to reschedule, please contact our office, so that we may do so. This will allow us to find a day/time that best meets your needs, and see other patients that may require a sooner appointment.

Thank you for taking a moment to complete these forms. We look forward to seeing you and are honored that you have put your health in our hands.
